

**HEAT INNOVATIONS** warrants this outdoor furnace, to the original owner, to be free of defect in material and workmanship for a period of twenty one (21) years from the date of purchase.

This warranty does not include the electrical components (aquastats, high limits, damper operators), gaskets, and cast iron ash grates. All these components are guaranteed for a period of one (1) year. Electrical component warranties are carried by their own manufacturers and are subject to their requirements.

In the event of an outdoor furnace failure, **HEAT INNOVATIONS** will provide the replacement part (s) or complete furnace only. The customer is responsible for any transportation (to and from the factory) as well as labor costs incurred while replacing the warranted part or furnace. **HEAT INNOVATIONS** will not accept any responsibility for antifreeze or inhibitor losses, shipping costs, or any indirect costs associated with the replacement of the furnace or part(s).

**HEAT INNOVATIONS** warranty coverage is 100% for the first five (5) years on the corrosion of the structure and water reservoir. After five (5) years, **HEAT INNOVATIONS** will pay a percent of the original purchase price towards the replacement of the furnace. In the event of a part (s) only failure, **HEAT INNOVATIONS** will pay a percent of the part (s) price based on the value of the part (s) from the time of the furnace purchase date. This percentage is broken up as follows: 70% in year 6, 60% in year 7, 40% in year 8, 30% in year 9, 20% in year 10, and 10% in years 11 to 21. The defective furnace is required in trade for any furnace replacement. **HEAT INNOVATIONS** assumes no liability after 21 years. Stainless steel water reservoir warranty does not include failure due to stress corrosion cracking.

This warranty does not cover damage resulting from accident, misuse, or abuse. An annual water sample **must** be sent to **HEAT INNOVATIONS** for an appropriate chemical or glycol level check. Inhibitors must be added to recommended levels as advised by **HEAT INNOVATIONS**. To validate this warranty, your registration must be completed and sent to **HEAT INNOVATIONS** within thirty (30) days of purchase date.

The **Blackjack Twenty One (21) Year** warranty applies to selected Homesteader units manufactured in 2005 and newer.
